PROFILE

As a dedicated Software Computer Student, I am committed to excelling in data analytics and demonstrating a strong willingness to be a quick learner. My academic journey has equipped me with foundational skills in Computer Science, fostering a deep understanding of software development and problem-solving techniques. I am eager to expand my knowledge in data analytics, driven by a keen interest in transforming raw data into actionable insights. My adaptability and enthusiasm for continuous learning enable me to swiftly grasp new concepts and technologies.

United Academy, Hassan — School

(2005-2018)

10th percentage - 96%

Masters PU, Hassan — PU

(2018-2020)

12th percentage - 86%

Malnad College Of Engineering, Hassan — Degree

(2020-2024)

CGPA - 6.9

PROJECTS

Attendance management system for Students using QR code

An attendance management system using QR codes allows students to scan unique QR codes to mark their presence.

Enhancing the lifespan and energy efficiency of wireless sensor networks

Enhancing the lifespan and energy efficiency of wireless sensor networks involves optimizing routing protocols, employing energy-efficient hardware, utilizing sleep modes, and implementing data aggregation techniques.
